Thank you, **tinyML Strategic Partners**,
for committing to take tinyML to the next Level, together

Executive Strategic Partners

The Leading Development Platform for Edge ML

edgeimpulse.com

Qualcomm
AI research

Advancing AI research to make efficient AI ubiquitous

Power efficiency

Model design, compression, quantization, algorithms, efficient hardware, software tool

Personalization

Continuous learning, contextual, always-on, privacy-preserved, distributed learning

Efficient learning

Robust learning through minimal data, unsupervised learning, on-device learning

A platform to scale AI across the industry

Perception

Object detection, speech recognition, contextual fusion

Reasoning

Scene understanding, language understanding, behavior prediction

Action

Reinforcement learning for decision making

Edge cloud

Cloud

IoT/IIoT

Automotive

Mobile

Accelerate Your Edge Compute

SYNTIANT

Making Edge AI A Reality

www.syntiant.com

Platinum Strategic Partners

Renesas is enabling the next generation of AI-powered solutions that will revolutionize every industry sector.

Host of the Trailblazers Series

Chris Rowen

Chris is a Silicon Valley entrepreneur and technologist, now VP of AI Engineering and Product for Webex Collaboration in Cisco. Most recently he was co-founder and CEO of BabbleLabs, a speech ML company, acquired by Cisco in 2020. Prior to Babblelabs, Chris served as CTO for Cadence's IP Group, which he joined after Cadence's acquisition of Tensilica, the company he founded in 1997 to develop extensible processors. He led Tensilica as CEO and later, CTO, to develop one of the most prolific embedded processor architectures, especially for compute-intensive embedded processing. Chris was a pioneer in developing RISC architecture and helped found MIPS Computer Systems in 1984. He has an MS and PhD in EE from Stanford and a BA in physics from Harvard. He was named an IEEE Fellow in 2015 for his work in development of microprocessor technology.

Today's Guest

Loic Lietar

Loic is a co-founder and the CEO of GreenWaves Technologies. GreenWaves Technologies, a fabless semiconductor company, designs disruptive ultra-low power embedded solutions for interpreting and transforming rich data sources such as images, sounds, radar signatures and vibrations using AI and signal processing in highly power-constrained devices such as hearables, wearables and IoT sensors. Prior to this, Loic worked 25 years for ST where he led several product divisions, has been the Chief Strategy Officer and co-founded and managed ST's corporate venture fund. Loic has been an active business angel for the last 8 years. He has also been president of Minalogic, the French cluster for semiconductors.
